2000 Litres Sump	4' 7.1"	5' 5.8"	4' 5.6"	18.9"

### **The Plastishells Tank**

Redefined to include an inner screw lid, this tank ensures the prevention of any insects and germs getting inside the tank. Identifying this need, Arpico has also strengthened the neck area of the tank, in order to give the necessary stability, making this tank more durable.

By using only FDA certified material, the tank also focuses on the health platform; securing the health and hygiene of all our customers.

# **Plastishells**

**A perfect choice for a hygienic healthy life**

## The Triple Layer Tank

This unique tank is a feature-driven product. The three specific layers have its own functions to provide the best quality water storage. Arpico is the only tank manufacturer that markets a triple layer tank with the below mentioned value additions.

### Outer Layer

The outer layer protects the tank from UV rays of the sun.

### Middle layer

The middle layer reduces water heating.

### Inner Layer

The inner layer is blue colour, enabling the user to see the water clarity at all times.

# Super Star

3 layer water tank

# Aqua Tough

Scientifically Designed

Aqua Tough water tank from Arpico is technologically advanced and made to international standards using 100% food graded raw material. The uniqueness of this tank is its height and the ribs. The higher the tank, the greater the water pressure. Changing the look of this tank in recent times, it is also ribbed to provide extra strength and ruggedness.

## **Smaller in Diameter - Less Space**

Aqua Tough tanks require less space, therefore helps you save on the cost of slab construction and installation.

## **Greater in Height - Maximum water pressure**

Because of the unique height of the Aqua Tough tank, you are guaranteed maximum water pressure.

## **Outer Ridges - Greater Strength**

The six outer ridges give more strength, stability & endurance to the Aqua Tough tank.

125lt & 90lt

**Wheel Bin**

125lt	Height - 910 mm
	Width - 640 mm
90lt	Height - 910 mm
	Width - 510 mm

150lt

Height - 985 mm  
Width - 500 mm

**Swing Lid Garbage Bin**

**3 in 1 Garbage Bin**

For efficient disposal of waste

Height - 875mm  
Width - 470mm

200lt

Height - 1040 mm  
Width - 495 mm

**Swing Lid Garbage Bin**

110lt

Height - 915 mm  
Width - 500 mm

**Swing Lid Garbage Bin**

500lt

Height - 1080mm  
Diameter - 855mm

110lt

**Milk Can**

Height - 740 mm  
Width - 500 mm

**Garbage Bin**

40lt

40lt

**Garbage Bin**

Height - 565 mm  
Diameter - 390 mm

**Advantages**

- Impact & crack resistant and resilient
- High rigidity
- Light weight
- Resistant to any weather condition
- Completely recyclable

# Garbage Bins & Utility Range

# Compost Bin

## Available Colours

Height - 1200 mm  
Diameter - 470 mm

## Make your Own Compost

An easy-to-use bin that converts your household garbage to compost. It will initially take three months to convert garbage to compost, but subsequently, you can remove compost on a weekly basis.

## Let's take a look at how it works in few easy steps:

- Set the ARPICO compost bin in a suitable place within your garden
- Drop in all your garbage, other than glass and plastics, into the bin
- Set plastic base at the bottom to prevent rodents removing garbage
- Initial reaction will take place in three months
- Thereafter, compost can be removed every week

# Arpico Green Gas Unit

Arpico Green Gas Unit is a waste management unit, which is a total solution for your organic waste. Through the disposal of your organic waste by this unit, you will be benefited as follows;

- Preserve environment by orderly garbage disposal
- Alternative energy for your cooking ( Methane Gas)
- 100% Organic Active Liquid Compost Fertilizer

Tank Capacity	Kitchen waste input per day	Waste water input per day	Dischargeable Green Gas per day
500 litres	4 kg	8 litres	0.16 kg
1000 litres	8 kg	15 litres	0.4 kg
5000 litres	30 kg	60 litres	2.0 kg

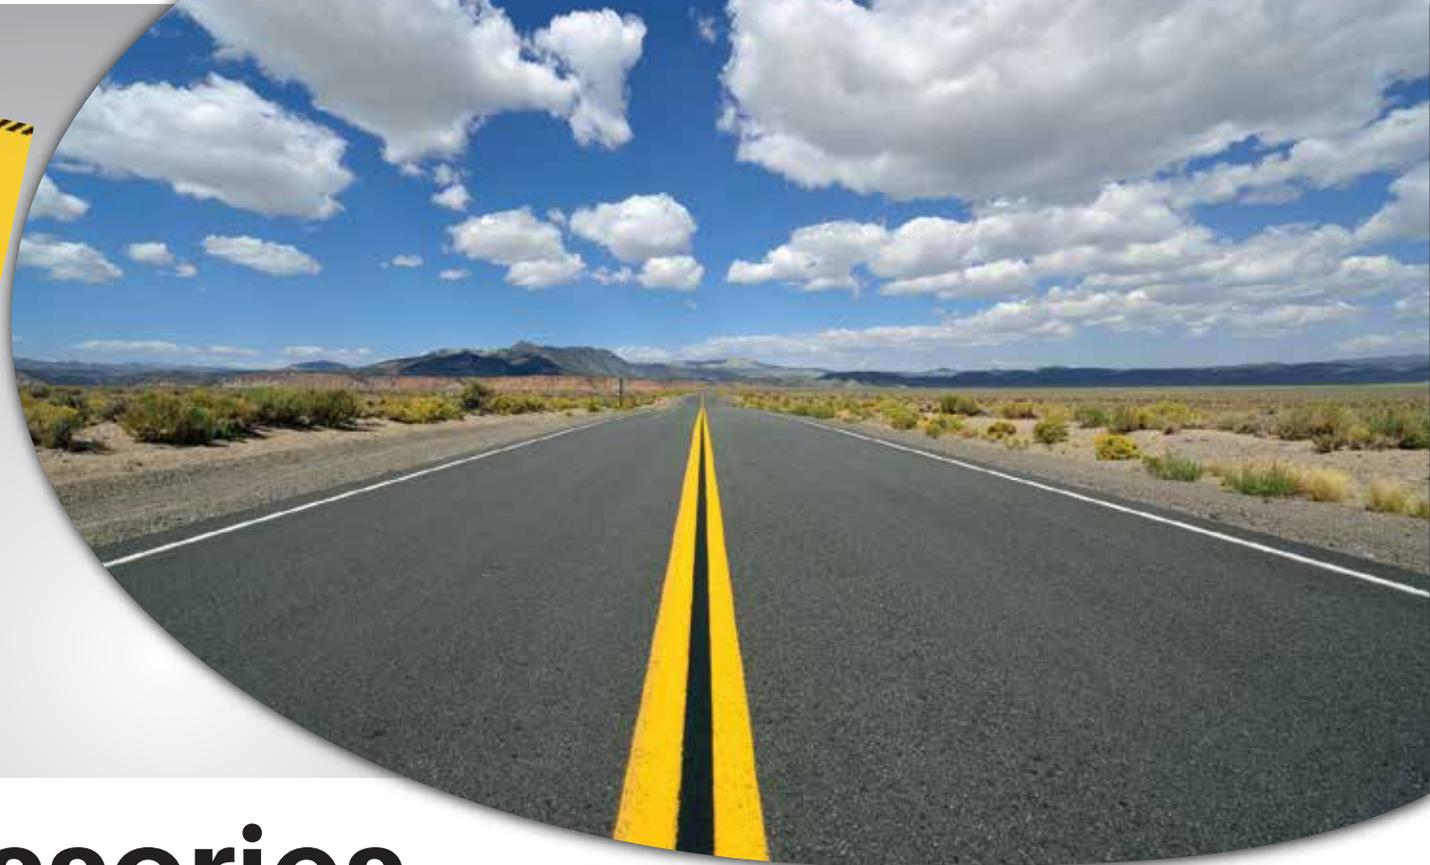

Contains two specialized separator walls and three chambers for solid effluent filtration

# Septic Tank

Traditional concrete septic tanks can be worrisome and require frequent maintenance. To help you avoid this stressful experience from time to time, we now offer you a healthy, very convenient solution: Arpico Plastishells Septic tank. Built entirely from solid plastic (LLDP), these tanks are designed to remain leakproof forever, unlike concrete tanks, eliminating contamination risks, overflow due to rain and costly maintenance.

- Manufactured from non-degradable plastic
- Resistant to tree roots and natural external pressures
- Repair-free, just install and forget
- Easy, cost-effective installation
- Contains two specialized separator walls and three chamber for solid effluent filtration

	1600 Lt	2500Lt
<b>Total height with lid</b>	4' 3"	4' 5"
<b>Length</b>	6' 5"	7' 3"
<b>Width</b>	3' 4"	4' 7"

# Traffic Accessories

## Traffic Cone (Small)

Height - 480 mm  
 Diameter - 280 mm

## Traffic Cone (Large)

Height - 730 mm  
 Diameter - 425 mm

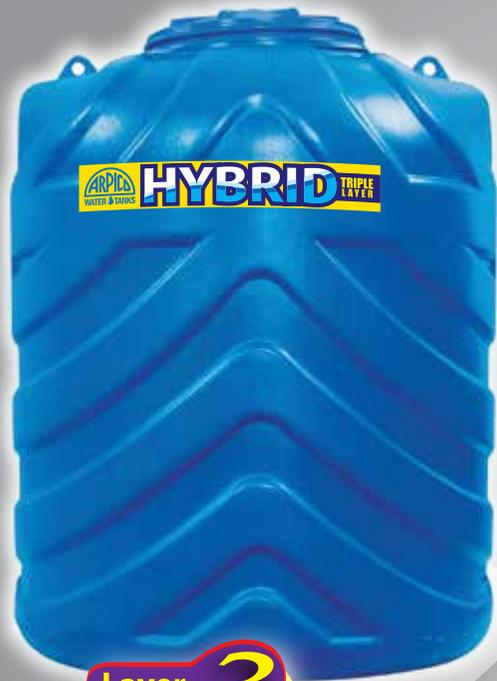

Traffic Separator Connecting Device

## Traffic Separator

Small	930 mm	765 mm	450 mm
Large	2000 mm	1000 mm	500 mm

**Layer 3**  
Protection

**INNER WHITE LAYER -**  
Keeps water fresh and displays purity of water.

**MIDDLE LAYER -**  
Keeps water cool by minimising heat.  
No Algae formation.

**OUTER LAYER -** Protects against UV rays.

# Hybrid Water Tanks

State-of-the-art Monoque Diagonal Design for maximum strength.

Aerodynamic design withstands strong winds and keeps water cool.

Sealed type screw lid protects against insects and dirt contaminating water.

Inner White Layer determines freshness and purity of water.

Strengthened shoulder lugs for easy lifting and anchoring.

Widest opening and strong base make cleaning easy.

- Latest Technology
- Highest Standard of Hygiene and Safety
- Long Lasting and Durable
- Unique Finish

**HYBRID TRIPLE LAYER**

**HYBRID 2 LAYER**

CAPACITY	DIMENSIONS		
	DIAMETER	HEIGHT WITHOUT LID	HEIGHT WITH LID
300 L	742 mm	870 mm	930 mm
500 L	860 mm	1085 mm	1160 mm
1000 L	1090 mm	1320 mm	1392 mm
2000 L	1375 mm	1590 mm	1665 mm
